Visiting the dentist is like lining up before a firing squad - a firing squad that wants you to pay thousands of dollars first - every single person here was a joy to work with - so helpful, so pleasant - not out to squeeze every dime out of you - highly recommended! I immediately told my daughter to cancel her appt at the other clinic and move over here.

I have spent more time in and out of dental offices growing up than I would ever like to admit; I have been through more dentists over the years than I have fingers and toes & Dr. Gurr is by far my favorite! There is no doubt Dr. Gurr is passionate about his work and his empathy and careful attention to detail in his dental work easily match that passion. His staff is absolutely incredible as well -from the office ladies to the assistants, I receive nothing but professional yet personable care. I have been going to this dental office for years, I have never had a single issue and will follow Dr. Gurr and his staff for life.

I was very pleased that Dr. Gurr could fit me in and fix a broken tooth on the day after I called his office. However, after two days, I'm having pain in the area where the work was done. I thought it might go away by itself, but in two days, it has not. I will be calling him back to see if he can take a look and maybe make some "adjustments." Thanks Dr. Gurr and team!

They explain everything they are about to do even to my children, going out of their way to make us all feel comfortable. The Dr is very friendly & down to earth. I've recommended him to my daughter for our 1yr old grandson, who is nervous and picky about who she uses for all his medical care. She was pleased with how delicate they were with baby but also with the new mommy.

Thank you from the bottom of my gums for the outstanding, professional care I received from your entire staff last week. I had awoken with tooth pain and you were able to squeeze me in for an exam and procedure that same afternoon. We had been patients there with the previous wonderful dentist but we now spend much of the year outside, where we also receive dental checkups. Thank you for keeping the great care here in Wasilla at the same high level. Most gratefully, Susan

The assistant who set the temporary crowns hit the side of my tongue two or three times with a grinding wheel, making some very nasty lesions that are very painful.

The receptionists that I dealt with were really wonderful in helping me understand the insurance, and the dental hygienist was very friendly and made conversation with me. The dentist was amazing! He was very friendly and made sure that all of my needs were met. He gave me new information and made me feel very comfortable. I will definitely be recommending Alaska Dental Arts to many people.

Dr. Gurr and Ruben handled my crown prep yesterday and I can honestly say it was the best experience that I have had with this sort of procedure. Dr. Gurr has gotten faster and Ruben was very professional with his duties. I have had other crowns done and it helped me to know what step we were on. After the top of the tooth is ground down and the grooves established it is practically over for me. The build up and the shaping of that is a non event. Everything else was done fast and efficiently. I cannot recommend them enough.

Dr. Gurr & his entire staff are incredibly caring and competent. Dr. Gurr is a perfectionist in his work, he breaks everything down into laymans terms & he makes time in between chairs to explain procedures without making me feel rushed. He & his dental assistants are very personable & attentive during the whole process; it is very obvious your comfort is their top priority. The front desk is just as respectful -they always go above and beyond & even with my most annoying questions I have never caught even a glimpse of attitude. Overall it is a great office, modern technology, the dental work is beyond excellent & they have made a customer for life.

Service has been not just quick but with a smile and they've gone the extra yard to make my visit pleasant, sorting thru insurance info so that I don't have to deal with it at the same time as I'm receiving treatment. My dental procedure was quick, painless, and follow-up was comprehensive and helpful. I have no hesitations in recommending them and, in fact, already have.

They talked to me directly about what's going on in my mouth; and not like I was a third person just sitting there. They actually checked things out with my mouth and jaw that I've never had checked before and that seems crazy to me but I'm very thankful and pleased! Received wonderful treatment by the hygienist and Dr. Gurr during my visit. During the check-up and teeth cleaning a small cavity was found. Dr. Gurr was so considerate of my particular time frame and he took care of the cavity right then. I truly appreciate not only the service but the caring of the staff and Dr. Gurr.

I have had two appts. so far. The office staff is polite/professional and greeted me with a smile both times. Brook (the hygenist) is very nice, easy to talk to and does great work (my teeth look and feel good) Dr. Gurr is polite, easy to talk to, informative, has a sense of humor, does very good work. They have not made me wait for my appointments, both of my have been on time. I can foresee AK Dental Arts being my dental office for a long time. I would not hesitate to recommend them to anyone that is looking for quality dental care.

I then sat in the waiting room for 20 minutes so U=I wasted some of my vacation tme, as it it stayed as it was I would only have been there for an hour and had planned to use my lunch hour to do the work. Also the nitrus machine was malfunctioning and so I was panicked while they were working.

I feel that the female dental assistant/technician needs to take a few classes on "bedside manner" as she is way to rough with the patient and does not explain whatever procedure she is about to perform on said patient. I personally do not like this sort of treatment and if she had been my first experience there then I would not have gone back. I also did not appreciate the laughing and joking banter that took place between the dentist and said assistant while they were working on my teeth! I don't feel that I had 100% of their attention on the work at hand being done to my teeth!

Wow! what a caring staff/dentist and all with great personalities - that doesn't come together in one workplace very often. I was very impressed at the care and detail of explanation that was provided to me and my daughter. I am so appreciative that this office offered a groupon for exam, xrays cleaning etc. It had been 2+ years since we had seen a dentist. Feel so much better, and know our pearly whites appreciated it.

I have had 2 cleanings there and I didn't feel it was very thorough. It used to be that the hygenist would really polish the teeth individually and you came out feeling like your teeth were so clean and smooth. These last 2 cleanings, they just swept the cleaning brush over the tops of the teeth ,by the gumline and this lasted just a few seconds for maybe each tooth. I'd say it has been disappointing.

I didn't like that that they are charging for missed appointments. This sometimes happens to the best of us without even knowing. When you make appointments 6 months in advance and you don't always get a card to remind you.....missed appointment can happen by accident. I just didn't like that we could get charged for this. I teach and getting appointments after 4:00 has always worked for me but not now with the changes.....would like to see more late appointment times for us teachers. Over all the new changes are good. Thank you!
